

# Excitement, Fun and Adventure Seeks Place to Stay!

Segway® was founded on a vision of eco-friendly, short distance transportation alternatives. Our mission is simple: to give customers a fun, safe, green, personal transportation experience that transforms the way people work, play and live. The Segway Personal Transporter (PT) is designed to operate as a pedestrian device anywhere someone can safely walk.

The unique features and design of the Segway PT make it an optimal transportation device for tours. With a Segway PT, your guests can:

- Explore local attractions, resort property and other points of interest.
- Engage in a fun and unique activity that will leave them smiling from ear to ear.
- Remember an experience that will last a lifetime.

Segway PT guided tours are quickly becoming an attraction in nearly every tourist destination around the globe. If you have an existing business we welcome you to contact us about revenue opportunities through concessionaire guided tours or inquire about our tour consulting services.

Find out yourself why a Segway PT tour is the number one thing to do in destinations across the globe. From

Paris to LA , Segway PTs are touring the world! Tours are already offered in parks, historic districts, beaches, resorts, and tourist attractions worldwide. Don't wait to offer visitors a memorable glide on Segway PT's at your destination!

## START A TOUR

To learn how to start Segway PT Tours at your resort or facility please contact your territory sales representative:

**Brian Lamacchia:**
