U.S. INTERNATIONAL TRADE COMMISSION ISSUES ORDERS RELATING TO INFRINGEMENT OF SEGWAY® PERSONAL TRANSPORTER (PT) PATENTS AND COPYRIGHT

Bedford, NH USA – March 14, 2016 – [Segway Inc.](#) (Segway), the world's leading provider of electric personal transportation, announced today that the U.S. International Trade Commission (ITC) ruled in its favor and has issued a General Exclusion Order, a Limited Exclusion Order and a Cease and Desist Order in connection with products imported by a number of companies because they infringe certain patents and a copyright covering Segway's Personal Transporter (PT).

The General Exclusion Order is particularly significant because it blocks importation of all products from all sources that infringe a broad patent covering Segway's PTs. It will be enforced at the border by U.S. Customs, which will exclude all infringing imports from entry into the United States. Segway will work with both Customs and the ITC to support effective implementation of the order.

The Orders were issued in the case initiated by Segway along with [DEKA Research and Development Corporation](#) (DEKA), founded by Dean Kamen, titled Certain Personal Transporters, Components Thereof, and Manuals Therefor. They may be viewed in their entirety [here](#).
